PROFESSIONAL SUMMARY

Software Developer with **one year of experience** in building scalable web applications using **Node.js, MySQL, React and JavaScript**. Proficient in frontend and backend development, database management, and API integration, with a strong focus on performance optimization and problem-solving. Passionate about writing clean, efficient code and continuously learning new technologies to enhance development processes.

EDUCATION

Christ College of Engineering and Technology
MBA (general)

Puducherry
2021-2023

- Graduated with a remarkable academic record, achieving an outstanding CGPA of 8.25.

St. Joseph College of Arts and Science
B.Com (general)

Cuddalore
2018-2021

- Graduated with a remarkable academic record, achieving an outstanding CGPA of 6.05.

AREA OF EXPERTISE

SKILLS	TOOLS
Frontend	HTML, CSS, Bootstrap, Tailwind CSS, React
Backend	Node.js
Database	MYSQL
Language	Python, JavaScript
API Tool	RESTful APIs, Postman
Tools	Git, GitHub, Figma, Canva

WORK EXPERIENCE

AAHA SOLUTIONS – India & United Kingdom
Software Developer

Puducherry
July 2024-Present

As a Full Stack Developer at AAHA Solutions, I design and develop high-performance web applications using React for the front end and Node.js for the back end. My focus is on creating intuitive user experiences while optimizing system performance. I specialize in building and refining RESTful APIs and enhancing SQL databases for speed, scalability, and reliability. Working within an Agile environment, I collaborate with cross-functional teams to deliver key features and solutions on time. By emphasizing clean code and conducting regular reviews, I ensure our applications are efficient, maintainable, and ready for future growth.

➤ **Project Name:** GRANDVIEW

- **Project Objective:** Grand View is a desktop application developed using Electron, React, Node.js, and SQL for streamlining business operations. Designed for the Australian market, the application provides an intuitive platform for managing manufacturing workflows, job orders, and inventory tracking, ensuring seamless communication between teams and efficient data management. The project also includes MYOB API integrations to enhance financial and business accounting functionalities
- **Role:** Full-Stack Developer (React, Node.js, SQL, Electron)

ROLES & RESPONSIBILITIES

- Developed **Grand View**, a desktop application using **Electron, React, Node.js, and SQL**, ensuring a smooth and responsive user experience.
- Built front-end components in **React**, focusing on **responsive design, usability, and performance optimization**.
- Designed and implemented **backend services in Node.js**, managing business logic, data processing, and API development for seamless frontend-database communication.
- Structured and optimized **SQL database schemas** for efficient **data storage, retrieval, and management**.
- Integrated **authentication and role-based access control** to enhance security and user access management.
- Developed **real-time data updates** for job tracking, inventory management, and workflow automation.
- Created and maintained **RESTful APIs** to enable seamless data exchange between different application modules.
- Integrated the **MYOB API**, streamlining **accounting, invoicing, and financial reporting** within the application.
- Implemented **error handling, debugging, and performance enhancements** to improve overall application efficiency.
- Conducted **unit and integration testing** to ensure high-quality software performance and reliability.
- Worked closely with **cross-functional teams** to gather requirements, troubleshoot issues, and refine features based on user feedback.
- Integrated **third-party tools and APIs** to extend and enhance application functionalities.
- Assisted in setting up a **CI/CD pipeline**, automating builds, testing, and deployment for smooth software releases.
- Provided **technical documentation**, ensuring clear guidelines on **application structure, API usage, database management, and MYOB integration workflows**.

ACHIEVEMENTS & CERTIFICATIONS

- **REACT** - The Complete Guide (Udemy)
- **JavaScript** - The Complete Guide (Udemy)
- **Full Stack Python Course** – Completed in one year

DECLARATION

I hereby affirm that all the information provided above is accurate and true to the best of my knowledge.
